ABOUT ME

Software Engineering student with a Licence in Computer Science, passionate about full stack development, artificial intelligence, and modern web technologies. I enjoy building scalable and user-friendly applications using technologies such as React, Angular, Symfony, and Python, with additional experience in networking and computer vision projects.

EDUCATION

2021 - 2022	Bachelor's Degree in Mathematics Manara High School in Gabes
2022 - 2025	License in Computer Science Higher Institute of Computer Science and Multimedia of Gabes
2025 - Present	Software Engineering Private Higher School of Engineering and Technology of Monastir

INTERNSHIPS & EXPERIENCE

2023- 2024	Internship Norma sas I created a weather website using React, JavaScript, and an API, allowing users to view the temperature and humidity of any specified region.
2024- 2025	Internship DM Nova As part of my graduation project, I completed a final-year internship at DM Nova, working on the HôteBooker web platform for venue booking and management using react and django
